## SONOMA INDEX-TRIBUNE.

SONOMA, MARCH 22, 1897.

Communications upon matters of local or general interest solicited. Communications designed to call attention to any matter of public interest, or to any person or institution, will not be inserted unless paid for as an advertisement. The author's real name must accompany all communications, not necessarily for publication, but as a guarantee of good faith. This rule will not be deviated from.

### VOTE AGAINST IT.

On the twelfth of next month a special election will be held in this State at which will be submitted to voters the proposition to adopt or reject three amendments to our State Constitution. Amendment No. Two raises the salaries of the Justices of the Supreme Court from \$5,000 to \$7,500 per annum and fixes the salaries of Court Commissioners at \$6,000 per annum each. It also increases the salaries of the Superior Judges in some twelve or fourteen counties. Of the other amendments we have nothing particularly to say at this time. It is the second amendment we desire to warn voters to beware of. Our people are already groaning under a heavy taxation, which will be largely increased next year owing to the extreme liberality of the recent Legislature, which voted away the people's money in the most reckless manner possible. Appropriation bills by the score were passed amounting in the aggregate to many thousands of dollars. This money of course will be wrung out of the people in the shape of taxes. In view of these facts, even if no other reasons were advanced, it would be sheer folly for the taxpayers to still further increase their obligations to the State by voting to raise the salaries of our Supreme Court Justices. In the first place they cannot afford it. In the second, these officials are already receiving sufficient compensation for the work they perform. There are hundreds of lawyers in this State to-day, lawyers, too, in every way well-qualified for the position, who would be only too glad to receive the present salaries of our Supreme Justices. The salary now paid them is ample, if not munificent, and on the above grounds we are opposed to an increase. As this money, for the most part, comes from the hard earnings of people who are assessed for from \$1000 to \$15,000, and whose earnings seldom exceed \$1500 a year, we trust for their own good they will rise up in their might and defeat the amendment, and show that for once they are capable of keeping down taxation by the use of the ballot.

### A TIMELY SUGGESTION.

In these columns will be found a communication from Robt. A. Poppe, wherein that gentleman suggests that the people of Sonoma celebrate the forty-first anniversary of the raising of the Bear Flag in connection with the Fourth of July. The suggestion is a most opportune one, for should our citizens decide to take hold of the matter, which hardly admits of a doubt, they will have no time to loose in which to make arrangements to carry out the plan suggested by our correspondent. It is needless for us to dwell upon the immense advertisement such a celebration would be to this section. Suffice it to say, we should take hold of the matter with a vim and push it through to a successful endeavor.

### THE RAILROAD MUDDLE.

The railroad situation at Santa Rosa remains unchanged with the exception that the people of that city now realize, when we fear it is too late, that they have been taken in by an adventurer. Had the people of Santa Rosa heeded the warning of the Index-Tribune given months ago, and inquired into the antecedents of W. H. Orr, before pinning their faith to him, they might not now be occupying the humiliating position of suppliants at the feet of a man of whom they know nothing. However, there is yet a chance for the construction of the Santa Rosa and Benicia Central Railroad and that chance hinges on the expulsion of Director Orr and the rescinding of the contract with Contractor Waltz. But can this be done? We hope so. But we fear it is impossible. However, time will tell.

We acknowledge our thanks to Mr. M. H. de Young for a certificate of membership to the San Francisco Chronicle Literary Union.

## IS OUR PART OF THE COUNTY TO BE BOOMED?

So far many of the immediate residents of Sonoma do not appear to realize the immense advantages that a good healthy boom would be to us, or if they do, Micawber-like appear to be "waiting for something to turn up," that will cause a boom without exertion on their part. To such we will say that if they want Sonoma Valley to have her boom they had better bestir themselves, and be mightily lively about it, too.

One way to help a boom along is to make our products known to outsiders. To do this we ought not to depend upon the farmer alone. It is expecting too much of him, after he has generously been to the trouble and expense of making and contributing collections of grain, fruit, earth, minerals, etc., and then have him pay out of his own pocket the cost of the glass jars and bottles in which to exhibit grain and other products. Money will be needed for the above things and also to purchase vegetables from parties who refuse to contribute. A portion of this sum, which is insignificant when compared with the benefits to be derived from an attractive Mechanics' Fair exhibit, should be freely given by our business men and others who exhibit nothing but who are bound to equally share with the Granger who does exhibit the benefits accruing therefrom.

Mr. M. K. Cady of Agua Caliente has signified his willingness to do all in his power to make a successful exhibit. That Col. George F. Hooper will most materially lend a helping hand with olives, olive oil, prunes, citrus fruits, etc., we feel assured. Mrs. H. Appleton is already making collections of dried fruits and pickles. Mrs. Capt. H. E. Boyes has a number of preserves and pickles of various kinds now ready, and is growing numerous kinds of vegetables, flowers, herbs and grasses from rare and imported seed to aid the exhibit, and is also going in largely for corn, cucumbers and melons. Mrs. Kate F. Warfield has put up a glass house for the express purpose of growing rare plants for this exhibition. Mrs. Hood will send largely of citrus fruits, wines, brandies, etc. Capt. J. H. Drummond will also join in and send specimens of everything his place produces, especially mustard.

For a commencement this is a very fair showing, but most of those mentioned above belong to the Glen Ellen district. Now if the farmers of the whole Sonoma Valley will but combine with those of Glen Ellen in one grand Mechanics' Fair exhibit, and in turn are given some assistance by our business men, the display will be one of which we may justly feel proud, while it will also attract hither hundreds of home-seekers.

### GLEN ELLEN.

Boom is the general word used at this time to indicate progress. Why it should be used as such I cannot conceive. However, take it for granted that we understand that things are booming, not only in Sonoma, but in its suburbs and surroundings. In traveling from Santa Rosa to Sonoma one day this week it was necessary to remain in Glen Ellen a short time, and I must say that everything in that village is in a lively, progressive state. It is the terminus of the S. V. R. R. and contains two blacksmith shops, two groceries, one candy and variety store and two hotels—the Mervyn, managed by J. T. Peters, and the Glen Ellen, where it was my good fortune to remain while in that vicinity. The latter is conducted by Chas. Crofoot, an old caterer to the public in that capacity. Before settling in Glen Ellen Mr. Crofoot had a number of workmen renovating, papering and painting the bar, dining-room, parlors and bedrooms in the most elaborate modern style. He is a gentleman well adapted for the business; knows how to receive his guests, looks well to their comfort while they remain, and gives them a good send-off when they are ready to depart. Mrs. Crofoot wholly and solely attends to the culinary department and looks after the guests and serves up an elaborate spread at all times. The Mervyn Hotel is also a well-conducted first-class house and so well known that it needs no praise from me. J. W. Gibson has in course of construction a slaughter house to be used by Chuck Burger, a wholesale and retail butcher of Santa Rosa, and by way of parenthesis, late aspirant for Sheriff of this county. A new butcher shop and Postoffice is to be built within a few weeks. It is gratifying to know that even Glen Ellen is booming.

## WINE AND VINE NOTES.

The Viticultural Convention is now just about as dead as the Santa Rosa railroad, the appointment of the new Viticultural Health Officer having dealt the death blow, for not one viticulturist in a thousand will endorse the appointment. We deem Mr. J. H. Wheeler a very estimable young man, but we do not think him the right man in the right place, and he being at the head of the office is just playing into the hands of the Chronicle and seems an endorsement of its charges. It is not a case of nepotism but apparently one of adoption and now the Commission will still have to look to its former chief for its brains. Mr. Wetmore was its motive power, the furnace, the steam and the engine. We differ with him on many points, but most willingly recognize his energy and ability. Why we object to Mr. Wheeler is this: We do not think that he possesses the necessary energy or tact for so important an office, and we also think that the very fact of his being at the head of the manufacture of certain insecticides that he should not be placed in the awkward position of having at times to authoritatively recommend the use of his own productions, and beside this if Mr. Wheeler devotes the necessary amount of time to the supervision of the manufacture of sulphide of carbon, etc., that he cannot give the proper amount of attention to his new office. When next our State Viticultural Commissioners meet our Governor they should follow the example of the Roman gladiators when parading in the arena and with one voice shout: *Ave Caesar, morituri te salutamus*, for it is now certain that the commission if it does not die out will rust out.

Mrs. Kate F. Warfield of Glen Ellen has received a telegram announcing the arrival in New York of the first carload of wine shipped by her directly East and that the wine was in most excellent order. We trust that all the remaining carloads will arrive in a similar condition and thus encourage the Eastern dealers to buy directly from our vineyards. If we once could establish such a trade it would be an immense aid to the wine industry, so we trust that Mrs. Warfield's energy and enterprise will prove a complete success.

We have often been asked about the sales of wine this season in our valley, and in giving our information it must be distinctly understood that we only go by hearsay: Mrs. Hood of the Los Guilucos has sold about 120,000 gallons at about 16c. Mrs. Peters got 25c. for her small cellar. Mr. Stuart has sold at a satisfactory figure. I. de Turk has made some good sales, prices not mentioned. Walter Phillips of Bennett Valley sold for 17c. E. W. Davis at a somewhat lower figure. J. S. Watson got as high as 32c for some varieties. Mrs. Williams has sold some brandy at a very high figure. Mrs. Warfield has sold about half her cellar at rates from 22c to 45c. H. E. Boyes sold half his wine at a more than ordinary rate. In the immediate vicinity of Sonoma there has been a number of heavy sales recently, notably those of Messrs. Henry Winkle, G. P. Sears and O. B. Craig. The latter disposed of 14,000 gallons in one lot at 25c, and on a smaller order he realized 32c per gallon. Mr. Winkle received 25c per gallon for some 30,000 gallons, and Mr. Sears realized 25c per gallon on 45,000 gallons.

A Mr. Truman has been writing for one of the New York papers, giving an account of the vineyards of Sonoma and Napa counties, but this gentleman seems to have most industriously avoided the vineyards of all the most progressive of our county. At any rate we are glad to learn from him that Mr. Charles Kohler considers the Zinfandel a "noble vine" as it bears well and produces a noble wine. We have to say is that we are sorry for Mr. Kohler and would advise him to visit some of our cellars wherein new varieties of wine are held.

If we can afford the time we will glean some information about these new varieties for our next issue.

### Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Cassia's *Aurifer Flower* will make them as free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Constipation, Nervous Prostration, Distress of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of *Aurifer Flower* will prove its wonderful effect. Sample bottles, 10c. Try it.

Farmers desiring groceries and having the cash to pay for the same, can lay in a supply at Weyl's Cash Grocery as cheap as if purchased in the city. Come and be convinced.

## PERSONAL AND SOCIAL.

Miss Maggie Murray, of Eureka, Humboldt county, is visiting Mrs. E. J. Mullin.

Deary Spencer is still at Whittier Springs, Lake county, where he has been since last December. Mr. Spencer reports his health as much improved and will return to Sonoma in a few weeks.

We acknowledge with thanks the receipt of an invitation to attend a social to be given by Valley of the Moon Chapter, Order of the Eastern Star, next Friday evening in Odd Fellows' Hall.

A pleasant surprise party was given to Miss Addie Sydnor on last Thursday afternoon by a number of her young schoolmates. At 3 o'clock the young folks assembled and participated in games and other enjoyments that all little ones find most pleasure in. At 4 o'clock light refreshments were served, after which the young hostess played several pretty pieces on the piano to the delight of all the children. Among those present were: Mamie Grothers, Bertha Campbell, Cecelia Grantee, Julie Grantee, Clara Hope, Grace Garner, May McDonnell, Clara Tivnen, Addie Sydnor, Allie Manning, Willie Manning and Harvey Perkins.

A number of the friends of Miss Alma Kalmer gave her a very pleasant surprise party at the home of her parents on Friday evening of last week. It was a genuine surprise to the young lady and the evening was spent very pleasantly. Dancing and parlor games were indulged in until a late hour. Among those present were: Misses Alma Kalmer, Arvilla Cheney, Rose Wilson, Florence Manuel, Margie Linehan, Cora Perkins, Ella McIntyre, Susy Shaw, Maggie Carriger, Bessie Armstrong, Bertie Sydnor, Willie Akers, Gracie Kalmer, Susie Cheney, Louise Shaw, Florence Linehan, Gracie Willson, Nellie Carriger and Eva Sydnor. Mrs. Kalmer and Mrs. Mary McHarvey. Messrs. Leland Shaw, Harvey Manuel, C. R. Fontana, Wm. F. Wilson, Robt. J. Dunn, Ephie Catter, Albert Dunn, Fred Ehrlich, Wm. Ellis, Eddie Ewell, Frank Kalmer, F. Carriger, Geo. Porter, Wm. Calderwood, Chas. Douglas, Willie Wehr, Jao. Skinner, Thos. Basse and Alfred McLaughlin.

Go to the Union Hotel. One of the best north of San Francisco. This house is under the management of Henry Raschen, and his knowledge of what is best calculated to secure the comfort and well being of his guests is visible in the orderly conduct of its affairs.

### NEW TO-DAY.

**HOOD'S**  
COMPOUND EXTRACT  
**SARSAPARILLA**  
TRADE MARK

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health. As this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and Hood's Sarsaparilla is worthy your confidence. It is peculiar in that it takes every impurity from the system, creates an appetite, and tones the digestion, while it eradicates disease. Give it a trial. Hood's Sarsaparilla is sold by all druggists. Prepared by C. L. Hood & Co., Lowell, Mass.

**100 Doses One Dollar**

## A LESSON WITH A MORAL.

When Will Our Eyes be Opened to this Great National Calamity?

The year 1886 played sad havoc with many prominent men of our country. Many of them died without warning, passing away apparently in the full flush of life.

Others were sick but a comparatively short time. We turn to our files and are astonished to find that most of them died of apoplexy, of paralysis, of nervous prostration, of malignant blood humor, of Bright's disease, of heart disease, of kidney disease, of rheumatism or of pneumonia.

It is singular that most of our prominent men die of these disorders. Any journalist who watches the telegraph reports, will be astonished at the number of prominent victims of these disorders. Many statements have appeared in our paper with others to the effect that the diseases that carried off so many prominent men in 1886, are really one disease, taking different names according to the location of the fatal effects.

When a valuable horse perishes, it becomes the nine days' talk of the sporting world, and yet thousands of ordinary horses are dying every day, their aggregate loss is enormous, and yet their death creates no comment.

So it is with individuals. The cause of death of prominent men creates comment, especially when it can be shown that one unsuspected disease carries off most of them, and yet "vast numbers of ordinary men and women die before their time every year from the same cause."

It is said if the blood is kept free from uric acid, that heart disease, paralysis, nervous prostration, pneumonia, rheumatism, and many other diseases would never be known. This uric acid, we are told, is the waste of the system, and it is the duty of the kidneys to remove this waste.

We are told that if the kidneys are maintained in perfect health, the uric acid, kidney, is kept out of the blood, and these sudden and universal diseases caused by uric acid, will, in a large measure disappear.

But how shall this be done? It is folly to treat effects. If there is any known way of getting at the cause, that way should be known to the public. We believe that Warner's safe cure, of which so much has been written, and so much talked of by the public generally, is now recognized by impartial physicians and the public as the one specific for such diseases.

Because public attention has been directed to this great remedy by means of advertising, some persons have not been led by the remedy. We cannot see how Mr. Warner could immediately benefit the public in any other way, and his valuable specific should not be condemned because some nostrums have been put in the public mind in the same way more than that all doctors should be condemned because so many of them are incompetent.

It is astonishing what good opinions we hear on every side, of that great remedy, and public opinion thus based upon actual experience, has all the weight and importance of absolute truth. At this time of the year, the uric acid in the blood invites pneumonia and rheumatism, and there is not a man who does not dread these monsters of disease; but he need have no fear of them if we are told, if he rid the blood of the uric acid cause.

These words are strong, and may sound like an advertisement, and be rejected as such by unthinking people; but we believe they are the truth, and as such should be spoken by every truth-loving newspaper.

Weyl's Cash Grocery Store is selling groceries at the very lowest rates. Call and be convinced.

## MISCELLANEOUS.

### How's Your Liver?

Is the Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated, the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, drowsiness and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

**NEVER BEEN DISAPPOINTED.**  
As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc. I hardly ever use anything else, and have never been disappointed in the effect produced. It is the most perfect for all diseases of the Stomach and Bowels.

## SONOMA INDEX - TRIBUNE.

SONOMA, MARCH 20, 1937.

### CITY OFFICIAL PAPER.

Hereafter obituaries, funeral notices, tributes of respect, etc., will be charged for at the rate of 10 cents per line.

### LOCAL BREVITIES.

Grain in the Los Guilucos Valley is looking fine.

Wild flowers of many beautiful hues dot valley and hillsides.

R. D. Moore of the Occidental keeps a first-class house.

The traveling public are invited to call at the Union Hotel.

The Occidental Hotel is fast becoming a popular resort.

At the Union Hotel no effort will be spared to please the guests.

The best of accommodations at the Union Hotel.

Go to the Occidental Hotel if you want good accommodations.

The traveling public praise the Occidental Hotel, R. D. Moore proprietor.

Mrs. C. C. Carriger is planting out a large number of young orange trees.

The Sonoma Public School reopens Monday after a week's vacation.

The Entre Nous Social Club will hold a special meeting Monday evening.

Several heavy shipments of wine have been made over the S. V. R. R. the past week.

Mr. F. Ehrlich is planting quite a number of peach and plum trees on his 42 acre farm near town.

If you covet appetite, flesh, color, vigor, take Ayer's Sarsaparilla. Sold by druggists.

Assemblyman McDonnell's amendment to the fish and game law has been signed by the Governor.

The entire right of way over the proposed Donahue extension from Novato to Napa Junction has been secured.

Ayer's Cherry Pectoral is adapted to every age and to either sex. Being very palatable, the youngest children take it readily.

The Occidental Hotel, under the management of Mr. R. D. Moore and his estimable wife, is growing in popularity every day.

Horse bills or cards printed at this office in the latest styles. Horsemen are invited to call and examine our cuts. Terms very reasonable.

A. J. Haubert sold his entire cellar of wine to a New York firm this week. We were unable to learn the price, but rumor says it was 25 cents per gallon.

Messrs. Henry Raschen and F. Ehrlich have been elected representatives to the Grand Lodge of the Knights of Pythias, which convenes at Santa Rosa, April 11th.

Last Tuesday was the ninetieth anniversary of the birth of Emperor William. The event was observed by our German residents by a display of bunting.

A committee from the Mexican War Veterans, headed by Col. J. W. McKenzie, will visit this place tomorrow for the purpose of perfecting arrangements for a picnic to be given by that Association on July 4th.

The Little Mission Band of "Cheerful Hearts and Willing Hands," will give a free entertainment in the Lecture Room of the Congregational Church, Wednesday evening, March 30th. All invited.

Farmers are busy plowing their vineyards and orchards. The outlook for fruits all kinds is very flattering, nothing having occurred so far this season to occasion any alarm for short crops.

V. Bulotti received a large number of choice evergreen trees from the city Tuesday. They will be used to beautify the grounds surrounding his neat two-story residence on Napa street.

Many improvements have been made in and about Sonoma the past month, notable among them being the refitting of Wey's Hall. The interior has been handsomely painted and papered, new chandeliers have replaced the old ones and a cosy room has been fitted up for the accommodation of the Entre Nous Social Club. The members will also use the large hall for their party which will be given on the 22d of next month.

In another column will be found "Notice to Bidders," which invites sealed proposals, for carpenter labor only, to be performed on our new printing office. We have adopted this plan of having the building erected in order that all our carpenters may have a chance in securing the job. All bids will be opened at 12 m., Wednesday, March 30th, in the INDEX-TRIBUNE office. Don't be backward, gentlemen. Call and see plans and specifications and put in your bids.

Mr. D. T. Hard, the new proprietor of the Sonoma House, and who by the way has come to Sonoma to stay, gives promise of being one of our most enterprising business men. At present he is erecting an addition to his hotel in the shape of five sleeping apartments for the accommodation of his regular patrons. As soon as this work is finished he will thoroughly renovate every room in the house and make other improvements which will completely transform the interior, and make it more inviting to those city guests who have engaged apartments ahead for the summer and the public in general.

## MARVELOUS ESCAPE.

A Man Fights Headlong from a Swift Train and is Uninjured.

About six o'clock last Tuesday evening the cars of the Sonoma Valley Railroad were rounding Bear's Point, a few miles southeast of Sonoma, Mr. E. P. Thomson, who resides on his farm near Agua Caliente, feeling somewhat faint, stepped out on the rear platform of the last car to obtain fresh air. No sooner had the door closed behind him than he was seen by several passengers to pitch headlong from the platform to the ground, striking on his head, the swiftly moving train sending him bounding alongside the track like a rubber ball. Conductor Corbaley immediately signalled the engineer to stop the train which was running at the rate of 25 miles an hour. The engine was reversed and the train backed to the place where Mr. Thomson had fallen off, but the trainmen instead of finding a mangled corpse were agreeably astonished to find that the gentleman had escaped serious injury, being but slightly cut about the head. It was a marvelous escape, to say the least, as it is seldom that similar accidents do not result in broken bones and frequently in instant death.

### Our Hotels.

The present season promises to be a lively one for our hotel men, and in anticipation of a large spring and summer custom preparations are being made to accommodate guests. We have several excellent hotels in Sonoma and vicinity which we cheerfully recommend to those who desire to rusticate in our beautiful and healthful valley. In Sonoma we have the "Union," Mr. Henry Raschen, proprietor; the "Occidental," kept by Mr. R. D. Moore and the "Sonoma House," presided over by Mr. D. T. Hard, while Mr. L. Modini of the "Garibaldi" will cater to Italian visitors. At Agua Caliente is the fine hotel of Mr. M. K. Cady, which will be more attractive than ever this season. At Glen Ellen, are two excellent public resorts, the "Glen Ellen Hotel" and the "Mervyn," the latter presided over by J. T. Peters and the former by that most genial of hosts, Charley Crofoot. Thus it will be seen that our valley is well provided with hotel accommodations. Many of these resorts have been enlarged during the year and all have been completely renovated. Our hotel men are among our most wide-awake citizens and are deserving of success.

### Van Doren Again Acquitted.

The jury in the Van Doren case rendered a verdict of "not guilty" in the Superior Court at Santa Rosa last Saturday. This makes the second charge on which defendant has been acquitted and the other counts against him will doubtless be dismissed. T. J. Geary, the Napoleon of the Santa Rosa bar, was of counsel for the defense and handled the case with extraordinary ability.

### COUNTY ITEMS.

Hon. Barclay Henley has returned from Washington.

Jailor Breitenbach has fifteen prisoners under his charge in the Santa Rosa Jail.

Boils, pimples, liver, ringworm, tetter and other manifestations of impure blood are cured by Hood's Sarsaparilla.

The Agua Caliente Springs Hotel, having been enlarged and refurnished is now one of the most elegant and attractive summer and winter resorts on the coast. Visitors will find the house supplied with every modern convenience, and no pains will be spared to make their stay pleasant and comfortable. Prices to correspond with the dull times.

\$500 to \$50,000—Bargains in orchards and vineyards, stock and grain ranches in every county in the State. Send stamp for catalogue. We can find quick sale for your farm, large or small, if it is cheap and you will send us full description. If you want to buy, tell us what you want and we can suit you. Gaman & Lyon, 339 Kearny street, San Francisco.

### IN MEMORIAM.

At a regular meeting of Sonoma Lodge, No. 28, I. O. O. F., held on Saturday evening, March 19, 1937, the following preamble and resolutions were unanimously adopted:

Whereas, it has pleased the Supreme Ruler of the Universe to remove from our midst our beloved brother, F. Albert Pauli, P. V. G., and

Witnesses, That it is but just that a fitting recognition of his many virtues should be made; therefore be it

Resolved, By Sonoma Lodge, No. 28, I. O. O. F., working under the Grand Lodge of the State of California, I. O. O. F., that while we lay with submission to the will of the Most High, we do not the less mourn for our brother, who has been taken from us;

Resolved, That in the death of Brother F. Albert Pauli this Lodge laments the loss of a brother who was ever ready to proffer the hand of aid and the voice of sympathy to the needy and distressed of the fraternity; a citizen whose upright and noble life was a standard of emulation to his fellows.

Resolved, That the heartfelt sympathy of this Lodge be extended to his family in their severe affliction.

Resolved, That these resolutions be spread upon the minutes of this Lodge, and a copy thereof be transmitted to the family of our deceased brother.

JOE B. SMALL, Committee.

H. H. DAVIS, W. F. BRITTE, JOE B. SMALL, Rec. Sec.

## A Suggestion.

Editor INDEX-TRIBUNE: Permit me sufficient space in the columns of your journal to call the attention of the public to the fact that the forty-first anniversary of the raising of the Bear Flag in Sonoma comes on Tuesday, July 5, 1837.

It occurred to me that the event should be properly celebrated this year in connection with the Fourth of July, especially as a large number of Eastern people are with us, who, no doubt, could be induced to come to Sonoma on that day, provided that suitable accommodations would be prepared by the people of this city. My suggestion would be this: That the Board of Trustees at their next regular meeting on April 6th, appoint a committee of twenty-five citizens of Sonoma Valley as a Committee of Arrangements to take charge of and conduct such celebration, and have it occur on Tuesday, July 5th. We could then celebrate, at one and the same time, the forty-first anniversary of the independence of California and the one hundred and eleventh of our American Union. As to the nature and character of the exercises I would leave them entirely to the Committee, and have it understood that said Committee will meet promptly the day after its appointment at the City Pavilion, which will be on April 7th, at 1 p. m., to organize and discuss the situation. This Committee can appoint special committees to take charge of particular portions of the exercises. As is well known in this community, there are thousands of Eastern people in this State who are anxiously looking around for some place to settle and invest their capital. We all know how localities less favored than ours manage to secure large numbers of our Eastern immigrants, and induce them to settle in their midst. It is done by a judicious system of advertising and public meetings. A celebration like the one suggested, aside from the pleasure of attending it and recounting the memorable scenes of early days, would be the means of bringing our valley into prominence, and doubtless would result in attracting a number of immigrants. I have also heard it stated that the Mexican War Veterans, Pioneers and members of the Grand Army of the Republic would come here if assured of a proper reception and suitable accommodations and, no doubt, other organizations are similarly disposed. I submit this suggestion of a joint celebration on July 5th to the respectful consideration of the public, and trust that something tangible may come from it.

SONOMA, March 26, 1937.

### This is the Way it is Done.

If you want your town to improve, improve it. If you want to make your town lively, make it. Don't go to sleep, but get up and work for it. Push. Get in. Advertise it. Talk about it, and talk favorably. If you have any property, improve it. Paint your house, clean up your back yard. Make your surroundings pleasant, and you will be better and your property will be worth more dollars in the market. If you are doing reasonably well advise your far-away friend to come and invest near you. Work steadily for your home place and home interests. Trade at home and help your home dealers. Keep your money at home as much possible and it is likely to help you in return. The successful towns of Southern California have been made successful by the property owners "pulling together." Public improvement is an investment that pays. Don't waste your time over some little, dirty neighborhood quarrel and hold back your aid to some good object through spite, but work for the general good and you will find yourself benefited. Get at it. Wake up. Rustle. There is no time to be lost, and every little helps. Took your horn, and took it loud.—Orange Tribune.

### Profit in Prunes.

There is a large and sure profit in the growing of French prunes in this valley. Story Bros, from a little patch of less than two acres of prune trees, on their place in town, gathered, last year, sufficient prunes to make, when dried, three tons, or six thousand pounds. These sold at 7 cents, making \$420 or about \$250 gross per acre. The expense attending their cultivation is slight, not exceeding \$50 per acre. And the trees referred to are not yet in full bearing. The wise farmer should try to have a greater diversity of products in the future and not rely on one particular thing which is liable to become overdone.

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.

When she became Miss, she clung to Castoria.

When she had Children, she gave them Castoria.

The Union Hotel has every convenience for the accommodation of families and others who desire a permanent hotel residence.

## THE CODLIN MOTH.

Spring and Summer Remedies Against the Destructive Pest.

The following paper has been issued by the State Inspector of Fruit Pests:

It is needless to write at length about the ravages of the codlin moth, and of the importance of finding a remedy against the pest. In a paper read before the Fruit Growers' Convention, held in November last, I expressed the belief that spraying with arsenates was the most successful of anything yet tried for this purpose. I also maintained that while the remedy doubtless would prove efficacious, killing the codling larva if used often enough, it would be a little premature to recommend it as a remedy, because of the very poisonous nature of the compounds, and that we needed a thorough trial to settle definitely the all-important question either of the arsenates would be of any danger to consumers of fruits so protected. Since expressing this, I have been in active cooperation with the State Entomologist of Illinois, Prof. S. A. Forbes, and I feel happy to state that his thorough experiments, although made on a comparatively small scale, have proven to my mind that in the climate of the Eastern States, the arsenates can be made a decided success by proper application, thereby saving two-thirds of an apple crop, and that there is no danger in using either of them in that climate, that is, in the climate of the State of California. Professor Forbes was kindly sent me, and I have freely quoted from it in the following. Professor Forbes states that the codling moth is a pest which has been known to injure apples in the State of California since the early days of settlement. That the results of once or twice spraying with Paris green in early spring before the young worms had dropped upon their stems resulted in the saving of about seventy-five per cent of the apples exposed to injury by the codling moth.

The arsenic remedies have, to my knowledge, been used by several persons in this State, but while they have been more or less successful, they have also been made of fruit treated with arsenic. These apples were found perfectly free from any trace of arsenic, although they had been made of fruit treated with arsenic. It must, however, be borne in mind, that while arsenic, or arsenate, is very soluble, in fact it is dissolved by the least moisture, Paris green and London purple are not, and will remain on the surface of the fruit, and in the case of the latter, it is not so soluble in water, hence will remain much longer on the trees. It is used in preference to arsenic, as it is not so liable to be washed off by rain; another advantage is that it will not be so easily blown away by a wind in an over-dose. Such at least is the report from the East. I have taken considerable pains to ascertain if any damage had resulted from use in this State. I have learned recently, on a visit to Costa Costa county, of Mr. Treat, that peach trees treated with Paris green for the purpose of killing diatomaceous beetles, suffered severely, but used on apples and pears it had no bad effect. Doubtless the same would be true of the codling moth. It will vary in strength, the proportion to be based on the percentage of fifteen per cent of the foliage except when used in France, where the small quantity is twenty-five cents per pound.

One pound of Paris green to fifty-four gallons of water is the strength used by Professor Forbes for his successful experiments. Other parties claiming to have equally successful results used only half the strength. The Paris green is stirred and mixed with the water and kept constantly stirred while being sprayed. It is a common mistake to use only one pound of the mixture to fifty gallons of water, and to use it in a single application. It is the residue from the manufacture of aniline dyes, and contains lime, arsenic acid and other acids. It is not so soluble, more adhesive, less poisonous and less expensive than Paris green. This compound, in use, is watered with small quantities, twenty-five cents per pound, and by larger quantities, twenty-two and a half cents. It is mixed to a thick paste, and is used in a single application. It is the residue from the manufacture of aniline dyes, and contains lime, arsenic acid and other acids. It is mixed to a thick paste, and is used in a single application.

It is the residue from the manufacture of aniline dyes, and contains lime, arsenic acid and other acids. It is not so soluble, more adhesive, less poisonous and less expensive than Paris green. This compound, in use, is watered with small quantities, twenty-five cents per pound, and by larger quantities, twenty-two and a half cents. It is mixed to a thick paste, and is used in a single application.

## IS THERE ANY HOPE?

NEW AND IMPORTANT OPINIONS OF PULMONARY EXPERTS!

Can the Universal Consumption be Successfully Treated?

Dr. Borgeon, a leading French doctor, has a new treatment for consumption.

He gives an emulsion of carbonic acid sulphured hydrogen gases, the latter gas carrying the former into every part of the throat and lungs.

This treatment, too, is directed at effects—the cause remains undisturbed. When this cause has been removed by perhaps the highest pulmonary authority in the world, i. e., the Brompton Hospital for Consumptives, in London, England, this remedy every year carries off from one-seventh to one-fifth of the entire population of England!

Dr. Payne, M.D., M.R.C.P., London, is authority for this statement.

The same or greater proportion of deaths obtains in America.

Dr. Payne also says that one-half the total number of deaths from all other causes have seeds of this disease in the system which only require some irritant to develop!

Dr. Hermann Brehmer, an eminent German authority, says that consumption is caused by deficient nutrition of the lungs, by general debility, and by these causes cannot be disputed.

The medical world recognizes them. The uric acid is the irritant in the blood that causes the development of the seeds which Dr. Brehmer says lie dormant in the blood.

Every particle of blood which passes through the lungs and heart, also goes through the kidneys, and if they are in the least deranged, they cannot rid the blood of its killing poison. The thousands of little hair-like sewer tubes of the kidneys very easily get blocked up and diseased; and when they do, they corrupt instead of purifying the blood. Kidney disease may exist, and yet no pain occur in that organ, because it is deficient in nerves of sensation.

Dip your finger in acid every day and it soon festers and is destroyed. Send acid poisoned blood through the lungs every second, and they soon give way.

The Brompton Hospital investigation showed that 52 per cent of the victims of consumption were afflicted with deranged kidneys, which permitted the uric acid poison to remain in the blood and irritate the lungs. This uric acid is the enemy fighting every year for organ, and if there be any inherent weakness in the lungs it inevitably causes pneumonia, cough and consumption.

The real cause of pulmonary troubles being so authoritatively shown to be faulty even though unsuspected action of the kidneys, explains why, in order to master the dreaded consumption, one must rid the blood of this acid irritant which inflames and burns up the lung substance. For this purpose there is nothing equal to that great specific, Warner's Sore Eyes. This remedy has now the favor of cure, and it is over the world purely on its merits. We have no doubt that if the kidneys are kept in natural action, consumption and a great many other diseases, caused by uric acid, will not only be cured but will be prevented.

When the kidney is healthy, no albumen appears in the water, but albumen is found in the water of more than half of those who die of consumption.

This, then, is the condition of things that always precedes consumption: First, weakened kidneys; second, retained uric acid, poisoning the blood; third, the development of disease in the lungs by the uric acid passing through them. Then there is a little cough in the morning; soon thick, yellow matter is spit up, followed by loss of flesh and strength, and the dreadful night sweats; and when the patient goes to his school physician for help, he is put on cod-liver oil which his stomach, weakened also by uric acid in the blood, cannot digest. Because there is no pain present in the kidneys, the patient does not think they are affected, but the kidney acid is doing its work every minute, every hour, day and night, and by-and-by the disease of the lungs is developed, then come hemorrhages, and at last the glassy stare which denotes that the end is near!

A post-mortem examination of such cases shows that the terrible uric acid has completely destroyed the substance of the lung.

It is impossible to cure lung disease when the blood is poisoned with uric acid.

THAT HACKING COUGH can be so quickly cured by Shiloh's Cure. We guarantee it. At Wegner's.

#### Sore Eyes

The eyes are always in sympathy with the body, and afford an excellent index of its condition. When the eyes become weak, and the lids inflamed and sore, it is an evidence that the system has become disordered by Scrofula, for which Ayer's Sarsaparilla is the best known remedy.

Scrofula, which produced a painful inflammation in my eyes, caused me much suffering for a number of years. By the advice of a physician I commenced taking Ayer's Sarsaparilla. After using this medicine a short time I was completely cured.

My eyes are now in a splendid condition, and I am as well and strong as ever.—Mrs. William Gage, Concord, N. H.

For a number of years I was troubled with a humor in my eyes, and was unable to obtain any relief until I commenced using Ayer's Sarsaparilla. This medicine has effected a complete cure, and I believe it to be the best of blood purifiers.—C. E. Upton, Nashua, N. H.

From childhood, and until with a few months, I have been afflicted with Weak and Sore Eyes. I have used for these complaints, with beneficial results, Ayer's Sarsaparilla, and consider it a great blood purifier.—Mrs. C. Phillips, Glover, Vt.

I suffered for a year with inflammation in my left eye. Three ulcers formed on the ball, depriving me of sight, and causing great pain. After trying many other remedies, to no purpose, I was finally induced to use Ayer's Sarsaparilla.

By Taking three bottles of this medicine I have been entirely cured. My sight has been restored, and there is no sign of inflammation, sore, or ulcer in my eye.—Kendall P. Bowen, Sugar Tree Ridge, Ohio.

My daughter, ten years old, was afflicted with Scrofulous Sore Eyes. During the last two years she never saw light of day. Physicians of the highest standing exerted their skill, but with no permanent success. On the recommendation of a friend I purchased a bottle of Ayer's Sarsaparilla, which my daughter commenced taking. Before she had used the third bottle her sight was restored. Her cure is complete.—W. E. Sutherland, Evangelist, Shelby City, Ky. 11

Ayer's Sarsaparilla, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1.00 per bottle.

# HATS!

In this department we are carrying all the latest styles and colors in MENS', BOYS' and CHILDRENS' SOFT AND STIFF HATS, including the celebrated John B. Stetson's fine Hats. To those wishing to buy Hats, either low-priced, medium grades or the best quality and shape, we call your special attention to a comparison of our stock before purchasing, for it will be to your interest.

## SO LOOK HERE FIRST!

HATS—Mens' Black Stiff, in all shapes, \$1.00 to \$3.50.  
HATS—Mens' Brown Stiff, in all shapes, \$3.00, \$3.25, \$3.50.  
HATS—Mens' Nutria or Pearl Stiff, in med. high crown, \$3.25.  
HATS—Mens' Black Soft Felt, in all shapes, 50c to \$4.50.  
HATS—Mens' Brown Soft Felt, in round or square crown, \$4.50 to \$5.  
HATS—Mens' Nutria Soft Felt, in round or square crown, \$4.50 to \$5.  
HATS—Young Mens' Black Soft Felt, in all shapes, \$1.50 to \$3.00.  
HATS—Young Mens' Nutria Soft Felt, in all shapes, \$1.50 to \$2.50.  
HATS—Boys' Black Brown Nutria and Stone color, 50c to \$1.00.

## Boys' Black Hats for Everyday Wear, 25c Each.

JOHN B. STETSON'S FINE HATS, in a Variety of Styles

Prices are \$3.75, \$4.00, \$4.25, \$4.50.

Farmers' large rim Pearl or Stone Color Hats, \$1.00, \$1.25.

Farmers' large rim Buckskin or Calfskin Hats, \$1.25, \$1.50.

Farmers' Boys large rim Pearl or Stone Color Hats, 75

THE NATION?

The Average Length of Life Decreasing—Not Pestilence—Not Famine—All our own Fault.

MODERN COOKING AND MODERN LIVING have brought it on. It comes upon us unawares. The patients have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint, all-gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and feet become cold and feel clammy. After a while a cough sets in, at first dry, but after a few months it is attended with a greenish colored expectoration. The patient feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become constipated; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow; the kidney secretions become scanty and high colored, depositing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart and Asthmatic symptoms; the vision becomes impaired, with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-half of our population has this disease in some of its varied forms. Snaker Extract of Roots (Seigel's Syrup) changes the fermentations of the Digestive organs so as to convert the food we eat into a form that will give nourishment to the feeble body, and good health is the consequence. The effect of this remedy is simply marvelous. Millions upon millions of bottles have been sold in this country, and the testimonials in favor of its curative powers are overwhelming. Hundreds of so-called diseases under various names are the result of indigestion, and when this one trouble is removed the other diseases vanish, for they are but symptoms of the real malady.

Testimonials from thousands of people speaking highly of its curative properties prove this beyond a doubt. Sold by druggists.

Bucklen's Arnica Salve. The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, and all Skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by E. Wegner.

SILHOU'S COUGH and Consumption Cure is sold by us on a guarantee. It cures Consumption. For sale at Wegner's.

SILHOU'S VITALIZER is what you need for Consumption, Loss of Appetite, Dizziness and all symptoms of Dyspepsia. Price 10 and 75 cents per bottle. For sale at Wegner's.

WHY WILL YOU cough when Silhou's Cure will give immediate relief. Price 10c. For sale at Wegner's.

CROUP, WHOOPING COUGH and Bronchitis immediately relieved by Silhou's Cure. For sale at Ed. Wegner's.

ARE YOU made miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow Skin? Silhou's Vitalizer is a positive cure. For sale at Wegner's.

CATARH CURED, health and sweet breath secured by Silhou's Catarrh Remedy. Price 50 cents. Nasal Injector free.

YOU are the atom and make more money at work for us than anything else in this world. Capital not needed; you are at work. Large earnings are from the first start. You will not need your own office. You are nothing to send your effort and did not, if you are true you will do so at once. H. HARRIS & Co., Portland, Me.
